Rarely does an opportunity as irresistible as Baymarque arise

In one of Melbourne's most prestigious and well known inner bayside suburbs, Hamton will create an exclusive secure townhouse community that is unique to Brighton.

Consisting of 46 high quality townhouses featuring contemporary architectural design; superior finishes, fixtures and fittings; and a significant diversity of townhouse types, Baymarque will be a stylish timeless development offering exclusivity whilst also being affordable.

Property research company, Charter Keck Cramer, has stated in a recent research document on the Brighton market, that there is "limited supply of contemporary townhouses throughout Brighton". This shortage of supply of contemporary townhouses, coupled with expected strong growth in rental rates in the area, will underpin moderate price growth in the short-term and stronger growth over the medium term.

Acquiring a townhouse at Baymarque is an opportunity which should not be missed.
